

DINESH R

PROFILE

Passionate Embedded Systems and IoT enthusiast with hands-on experience in microcontrollers, sensor interfacing, and real-time monitoring systems. Continuously exploring new technologies to develop efficient and innovative IoT-based products for real-world applications.

CERTIFICATES

- Verilog digital design (58 %) - **NPTEL**
 - Artificial intelligence (76 %) - **NPTEL**
-

LANGUAGE

- English
 - tamil
-

EDUCATION

- **B.E Electronics and Communication Engineering** 2023 - 2027
CGPA - 7 (upto 5th Semester)
Erode Sengunthar Engineering College,
Erode
 - **HSLC-68.50%** 2021 - 2023
GHSS Padiyur ,Tiruppur
-

SKILLS

- **Programming:**
C,C++, Embedded C, Python, MATLAB (Basic)
 - **Microcontrollers:**
ESP32, Arduino (Uno, Mega)
 - **Embedded & IoT:**
Sensor Interfacing, UART, I2C, Blynk IoT
 - **Hardware:**
Circuit Design, Breadboard Prototyping, Battery Pack Design
 - **Tools:**
Arduino IDE, MATLAB
-

PROJECTS

Custom Battery pack for 720W E-vehicle

Designed and developed a custom lithium-ion battery pack for a 720W electric vehicle application.

Air quality monitoring system

Developed an IoT-based air quality monitoring system using an ESP32 microcontroller to monitor environmental conditions in real time and send data to a mobile dashboard

INTERNSHIPS

2 week internship on Embedded Systems and IOT design

Yadhronics Private Limited,
Coimbatore

15 days internship on webdevelopment and design

Duodev technologies,
Erode
